Sir:-

I have the honor to submit herewith for your kind consideration with the request that it be referred to the proper department or departments a copy of an instruction received by me from the Department of State directing me to prepare for the Director of the United States Mint replies to a list of questions concerning the production, exchange, and industrial consumption of gold and silver, as well as other monetary matters in foreign countries. Enclosed herewith a copy of the list of questions and I should be very grateful if as many of these as possible could be answered by the competent authorities to whom you may think fit to refer them. I regret exceedingly to trouble you in this matter but trust that no inconvenience will be caused by the request owing to the fact that the data is no doubt readily available. I should be glad also for copies of any printed publications which it might be convenient to send supplementing the replies to the questions.

I shall greatly appreciate any assistance which you may be able to give me in this matter. Thanking you in anticipation,
